

# At work curing the world

GE works to build, power, move, and cure the world.

GE works on things that matter. The best people and the best technologies taking on the toughest challenges. Finding solutions in energy, health and home, transportation and finance. Building, powering, moving and curing the world.

With over 11,000 IT professionals located in roughly 50 countries, GE IT represents a major area of focus and investment across the company.

If you are looking to make a measurable impact on the way GE does business, gain exposure to senior level IT and business leaders, and expand your global mindset and network by working and training with colleagues from around the world — your wait is over.
